- ★ markers, colored pencils, crayons (opt.)
- ★ glue sticks
- ★ printer and white printer paper
- ★ Spanish/English Dictionary (for Spanish lapbooks)
- ★ scissors
- ★ stapler

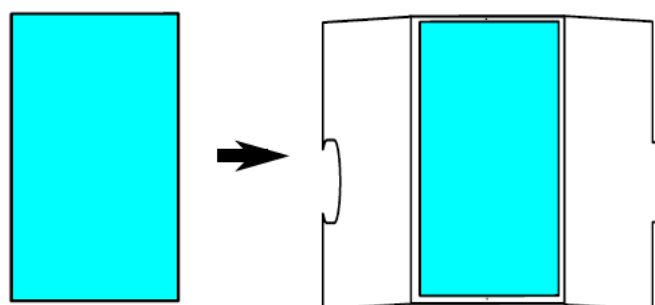

★ 2 Create Your Lapbook

The base or canvas of a lapbook is created by taking a file folder and folding the two ends towards the middle crease, creating a shutter fold with three panels.

Paste a piece of construction paper or card stock in the middle panel to stabilize the center crease.

3 Paste Minibooks

Create minibooks on a certain theme, skill or unit and paste inside the lapbook.
